

Name:Kadiya Rushi Sitaram

Description:Netflix-clone

This is Clone of famous Entertainment Company Netflix.It is just a clone which is made by using HTML,CSS,JavaScript.I try to make as much as the original web site.I made a total of 3 pages. Lending Page,SignIn Page ,BrowsePage.

Approach

Start with the Lending page. I try to make by Error and try a method .I start with the top to make a navigation bar and after that banner. In the login page i try to make it the same as netflix.In Browse page i use TMDB api to make this page.

Tech-Stack Used:

HTML:Make the structure of the website by identifying the appropriate elements required .

CSS :Made Website Very beautiful and same copy of netflix.

Javascript:It makes clone interactive website as original.

Api:I use it to get data Like name ,image,tages of movies to show in Browse Page.
